

Paläontologische Gesellschaft

Dear members of the German paleontological community, dear colleagues,

The deadline for nominations has passed and we present a list of candidates to join the Paleosynthesis Advisory Board. We have received many nominations, but the list contains only those peers with two or more nominations. The 16 nominees are introduced on our website: [List of candidates](#).

Seven peers will be elected to join Wolfgang Kiessling on the Advisory Board. The main task of the board is to evaluate proposals for Paleosynthesis workshops to be held twice a year at the GeoZentrum Nordbayern in Erlangen.

Please participate in the election. You have up to three votes. Keep in mind our aim to have an even gender balance and to involve at least two early career scientists (< 7 years after PhD; these candidates are marked with *).

The election deadline is December 15, 2019.

Many thanks for your support,
Barbara Seuss and Wolfgang Kiessling
